

COVID-19 TOOLS AND RESOURCES

ASSESSMENT TOOLS

ISTSS members have collected a repository of 26+ trauma-informed measures for use during the COVID-19 pandemic. Special thanks to the Research Methodology Special Interest Group for their work in this area.

TELEHEALTH MATERIALS

ISTSS clinical experts from around the globe have contributed to a wealth of trauma-informed telehealth materials for adults, adolescents, and children.

PEER-REVIEWED PUBLICATIONS

The Journal of Traumatic Stress COVID-19 virtual special issue examines intervention adaptation, supervision, pandemic-related stress and more!

BLOG POSTS

The ISTSS Trauma Blog includes 20+ COVID-19 related articles. These posts cover topics such as resilience, misinformation and mental health, psychological first aid, and despair during the ongoing pandemic.

FRIDAY FAST FACTS

Be sure to check out the ISTSS Pandemic Friday, Fast Facts for more tools and resources, including a special panel examining Traumatic Stressors during COVID-19.
